In commemoration of 2020 World Metrology Day

On May 20, World Metrology Day is celebrated in commemoration of the signing of the Metre Convention in 1875. Peru was one of the 18 founding states. This treaty provided the basis for a unified and consistent measurement system throughout the world.

As part of the commemorative activities, each year INACAL's Metrology Directorate holds the Metrology Symposium in Peru, and this year in its XI edition (Virtual) will feature national and international exhibitors.

This Symposium is aimed at experts, professionals and technicians of calibration and testing laboratories, industrial companies, professors and students of engineering and science universities interested in learning about the recent advances in metrology worldwide, and their applications in measurements of various physical and chemical quantities used in various fields of technology, industry, science, among others.

PLACE: Virtual

DATES: Wednesday 20 and Thursday 21 , May 2020.
